

TRENT CE PRIMARY SCHOOL

CHURCH WAY • COCKFOSTERS • EN4 9JH

## Stomach Bugs

If your child is poorly, please call or email the office to let us know. As a rule of thumb, your child should stay at home if they have a temperature at or above 38°C or if they have had sickness or diarrhoea during the previous 48 hours. Their needs to be a whole day clear between these symptoms and your child starting school to prevent a rapid spread of infection throughout the school community. Thank you for helping to keep Trent's children and families healthy.
